

INDEX

- abrasion resistance, 47–48
- acid etching, 48, 51
- activation function, 80, 82, 94
- Adam, 82
- adaptive moment estimation *see*
 - Adam
- additive manufacturing, 79
- alloy composition, 3
- annealing, 17
- ASTM D6677, 43

- binder materials, 48
- boundary
 - conditions, 93, 96, 111–12
 - layer, 91

- cellulose, 62
- cemented carbide, 47–49
- chemical vapor deposition *see*
 - CVD
- coating
 - adhesion, 48, 49
 - thickness, 20, 30, 34, 38
- convergence, 82–83, 106
- copper deposition, 33
- cutting tool, 47–48

- CVD, 47–48

- dataset, 80, 86, 93
- decortication, 63, 66–67
- deep neural networks *see* DNNs
- diamond coating, 47–48
- dislocation, 2
 - activity, 17
 - theory, 16
- DNNs, 5, 80, 82, 86
- DP590 galvanized steel, 109–10
- dropout, 84

- energy dispersive X-ray
 - spectroscopy *see* EDX
- EDX, 18, 19, 29
- electroless plating, 2, 11, 21
- environmental aging, 21–22

- FEM, 88, 105
- FESEM, 18–19, 21
- FESEM-EDX, 27
- fibrils, 62
- field emission scanning electron
 - microscope *see* FESEM
- finite element method *see* FEM

- FORTTRAN, 109
- gaussian density, 107
- grain boundary, 11–12
- graphite film, 49
- graphitic, 48–49
- heat
 - conduction, 89
 - flux, 107, 112
- hybrid composite, 71
- IMC, 10, 12, 103
- injection moulding, 70, 74
- intermetallic compounds *see*
 - IMC
- JEDEC standard, 18
- kernel regularization, 84
- laser direct energy deposition *see*
 - LDED
- LDED, 79, 85
- lumens, 62
- martensite, 80
- melt pool, 85, 91
- microstructure, 15, 79, 85
- mitigation, 17
- Murakami's
 - etching, 48, 51
 - reagent, 51, 55
- natural fiber, 62–66, 68
- numerical analyses, 89
- OpenFOAM, 92
- oscillation
 - amplitude, 104–05
 - frequency, 104
 - laser, 105–14
 - welding, 104
- PCB, 9–10
- plating setup, 18
- polycrystalline, 47
- printed circuit boards *see* PCB
- pultrusion, 70
- rectified linear unit *see* RELU
- regularization, 80, 84, 86, 93
- ReLU, 82
- residual stress, 10, 15, 17
- SiC, 53
- silicon carbide *see* SiC
- steel-aluminium hybrid, 103
- stress relaxation, 14–15
- thermal history, 79, 80, 84–85, 88
- thickness measurement, 19
- Ti-6Al-4V, 79–80, 84, 89, 92
- tin whiskers, 11, 14, 19–20
- vickers hardness, 47
- weld quality, 103, 114, 117, 119
- whiskers, 16, 19
 - length, 18, 20
