

INDEX

- active, 6, 14, 64, 114, 126, 156
- agglomeration, 45
- ant colony algorithm, 107, 124, 126
 - optimization, 4, 111, 115, 125–26, 182,
- aquila, 87
- artificial intelligence, 3, 5, 8, 166, 168
- atmospheric pressure plasma, 46
- AutoCAD, 30
- conventional lightning
 - protection, 23, 26
 - general arrangement, 21
- continuous wavelet transform, 4, 9–10, 14
 - coefficients, 15–18
- CWT *see* continuous wavelet transform
- DG *see* distributed generation
- distributed generation, 104–05, 123
 - implementation, 123
- distribution network, 3, 125, 138
 - reconfiguration, 129–31
- doubly fed induction generator, 142
- early streamer emission, 22
- earth resistance, 27
- electric power distribution, 1, 7, 126, 129
- fault
 - detection, 3, 5, 18
 - classification, 4
- fourier, 10, 19, 53, 57
- framework, 3, 5, 76, 167, 170
- franklin rod, 21
- fuzzy logic, 169
- generator constraint, 4, 91–92, 109,
- grid-connected, 166–67
- grounding system, 6–7, 28–29
- genetic algorithm, 124
- global electricity generation
 - statistic, 103

- harmonics, 78, 82, 84, 87, 112–14
- high stress, 6, 156
- hybrid renewable energy, 168, 170–72
- kyoritsu digital earth tester, 30
- lightning protection system, 21, 24–25, 27–29, 32, 41–42
- low-density polyethylene, 44
- metaheuristic, 4, 95, 115, 166
- microgrid, 136, 143, 147
- morlet, 10
- multi-objective, 5, 86, 170–72
- particle swarm optimization
 - algorithm, 32
- passive power quality, 4, 71
- performance evaluation, 6
- plasma, 46–51, 57, 59, 62, 64–68
- polyethylene, 43
- polymeric, 43
- power generation systems, 104
- protective angle method, 25
- protective angle, 4, 24–25
- reconfiguration, 4, 129, 136–41
- real-time, 2, 6, 14, 72, 76, 145
- reactive, 15
- reliability, 1–3, 5–6, 9, 44, 72,
- rolling sphere method, 24, 34
- silanes, 45
- silicon dioxide, 45
- single-tuned harmonic filter, 107
- soil resistivity, 28, 30
- standard particle swarm
 - optimization, 32
- standalone, 172
- STATCOM, 5, 87, 144–47, 150–52, 162–65
- structural, 4, 27, 53–54, 56,
- voltage sag, 9, 10–15, 18, 19, 49
 - event, 10
 - source, 147
 - signal, 14, 17, 147
- wavelet transform, 9–10
- wind
 - generation, 113, 150, 160, 164–65
 - turbine, 112, 150
