

INDEX

- 3D-printed prosthetics, 3
- acinetobacter baumannii*, 19
- AGaN. *See* aluminium gallium nitride
- AIN. *See* aluminium nitride
- alcohol, 21
- aluminium
 - gallium nitride, 25
 - nitride, 25
- artificial
 - intelligence, 8
 - pacemakers, 6
- BCI. *See* brain computer interfaces
- BCM. *See* body cell mass
- bioimpedance, 31
 - methods, 33
- biomedical engineering, 1
- bionics, 6
- body cell mass, 37
- body composition, 37
 - measurements, 32
- brain
 - activity detection, 98
 - computer interfaces, 9
 - wave frequency, 99
- CDRH. *See* Centre for Devices and Radiological Health
- Centre for Devices and Radiological Health (CDRH), 91
- challenges, 92
- cleaning and disinfection, 21
- clostridium difficile*, 17
- cochlear implants, 6
- cognitive load theory, 97
- computed tomography
 - scanning, 3
- concept development, 81
- conductive volume, 35
- cost, 80
- CT Scan. *See* computed tomography scanning

deoxyribonucleic acid, 4
 development of electrosurgery,
 55
 device testing & prototyping, 90
 disinfection technologies, 17
 DNA, 26, *See* deoxyribonucleic
 acid
 dual-energy X-ray
 absorptiometry, 37

escherichia coli, 19
enterococcus faecium, 19
 EEG. *See* electroencephalogram
 electro surgical unit, 54
 electroencephalogram, 96
 electrosurgery process, 52
 electrosurgical system, 51
enterobacter cloacae, 19
 environmental contamination,
 18
 ESU. *See* electrosurgical unit
 European Council Directive
 93/42/EEC, 92

fasting, 41
 functional replacements, 5

gait
 analysis, 117–20
 cycle, 118

gram
 negative (GN), 18
 positive (GP), 18

HAI. *See* healthcare associated
 infections

HCW. *See* healthcare worker

healthcare
 worker, 18
 associated infections, 18

HF. *See* high frequency

high-frequency inverter, 60

HW. *See* hydrostatic weighing

hydrogen peroxide, 22
 solution, 21

hydrostatic weighing, 37

ICW. *See* intracellular water

infusion pumps, 5

intracellular water, 32, 37

klebsiella pneumoniae 19

LBM. *See* lean body mass

lean body mass, 32

learning environment, 106

lifecycle, 26

magnetic resonance imaging, 2

MDRO. *See* multidrug-resistant
 organisms

medical

 devices, 5

 technologies, 3

mercury vapor technologies, 23

monopolar electrosurgery, 53

motion capture, 121

- MRI, 3, *See* magnetic resonance imaging
- multidrug-resistant organisms (MDRO), 17
- NeuroSky Mindwave, 100
- no-touch disinfection (NTD), 22
- NTD. *See* no-touch disinfection
- patient care, 4
- PhA*. *See* phase angle
- phase angle, 37
- phenol, 22
- positron emission tomography, 3
- power controller, 61
- principles of electrosurgery, 57
- progenitor cells, 7
- project scheduling, 84
- prosthetic arms, 6
- pulsed-xenon, 22
- quality assurance engineers, 2
- radiation, 22
- recombinant deoxyribonucleic acid, 4
- regenerative solutions, 7
- regulation concerning medical devices, 91
- rehabilitation technologies, 9
- ribonucleic acid, 26
- RNA. *See* ribonucleic acid
- RNA viruses, 19
- safety considerations, 53
- single-electrode EEG, 100
- sodium hypochlorite, 21
- staphylococcus aureus*, 17
- target parameters, 82
- telemedicine, 11
- temperature/power relationship, 74
- tissue engineering, 7
- ultrasound, 4
- ultraviolet, 5
- US Patent 879,532, 56
- UV. *See* ultraviolet
- wearable gait analysis, 121
- wound infections, 20
- X-ray, 3
