

INDEX

- artificial intelligence, 1–2
- AI. *See* artificial intelligence
- antenna gain, 14–15, 20–21, 25–26, 36, 38
- application programming interface, 89
- API. *See* application programming interface
- bandwidth, 26, 90, 96
- base station, 2–5, 6, 9, 11, 32, 35, 37–39, 43, 49–50, 55
- beamforming, 6, 12, 36, 43
- BER. *See* bit error rate
- bit error rate, 48
- Blynk app, 63–64, 66, 68
- cloud computing, 8
- central processing unit, 87
- CPU. *See* central processing unit
- data centre, 8, 71–72, 74–77, 79–80, 82, 89
- defected ground structure, 15–16, 22–26
- DGS. *See* defected ground structure
- doppler frequency shift, 9, 46, 48, 56
- fifth generation (5G), 1–2, 5, 7, 13, 16, 26–29, 31, 33, 43–44, 56–58
- fog computing, 74–75
- handover, 6–7, 9, 11, 45–48, 50–52, 54–56, 58
- high speed rail, 7, 46, 54
- high speed train, 45–50
- HSR. *See* high speed rail
- HST. *See* high speed train
- internet of things, 1–2, 7–9, 27, 54, 60, 62–63, 69–70, 75
- International Telecommunication Union, 13, 27, 31, 44
- IoT. *See* internet of things
- ITU. *See* International Telecommunication Union
- load balancing, 73–74, 93

- line-of-sight, 5, 35, 38–40
- long term evolution, 7, 29, 52–54, 56, 58
- LoS. *See* line-of-sight
- LTE. *See* long term evolution

- MIMO. *See* multiple input multiple output
- mm-wave, 5–6, 31–32, 35–38, 43
- multiple input multiple output, 4–6, 11–12, 27, 29, 31
- mutual coupling, 9, 14–16, 20, 25–26

- network slicing, 8
- network virtualisation, 8, 10, 87–89

- OFD. *See* orthogonal frequency division multiplexing
- orthogonal frequency division multiplexing, 48

- quality of service, 45–46, 58, 89
- QoS. *See* quality of service

- radio access network, 2–6, 9, 10, 89
- RAN. *See* radio access network

- scalability, 92, 94, 96
- SDN. *See* software defined network
- software defined network, 73, 87
- switch migration, 8, 10, 74, 76, 79–80, 82, 84–85

- UAV. *See* unmanned aerial vehicle
- unmanned aerial vehicle, 63–64, 66, 68–69
- user association, 5–6, 9, 11–12, 32, 36–38, 40–41, 43

- virtual local area network, 8, 87, 93
- VLAN. *See* virtual local area network

- wi-fi, 6, 62–65
